FEEDBACK FROM OUR VALUED CLIENTS

See firsthand experiences and honest feedback from our valued clients. Discover how our solutions have made a difference in their businesses because client satisfaction is our priority.

[BOOK A CALL](#)

A few months after launching the app developed by **DevOrbis**, thousands of users have downloaded the app. The client recommends the **vendor** because of their **excellent communication** and project

Good **communication** and good **skills**, highly recommended.

Chris

Co-Founder at Sourcr.

Salman is very **honest, talented** and **professional**. Definitely steps out of his **comfort** zone when needed and is **extremely** competent

Toby

CEO

management skills. Moreover, the client is extremely pleased with the positive results of the engagement.

KEN

CEO at Evercare Caregivers

I hired **Amir** for a web app project, but quickly realised that Amir's skills are vast. He became the principal developer and cloud architect. He is **excellent** in React, AWS, MongoDB, NodeJS, frontend and backend technologies etc... As well as architecture and security design of the solution. I have no hesitation in recommending Amir & will be working with him again. **Fantastic work!!!**

Albert

CEO at Perkforce

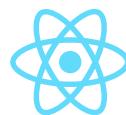

Thanks to **DevOrbis**, the app's beta version has been released and is a success and the client has started to onboard the users for the app. The team uses Trello for project management and communicates via Google Meet and Slack. So far, the client is impressed with the **team's work ethos**.

Richard

CEO at 8rent
